DETAILED ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

13. An electronic circuit arrangement as claimed in claim ~~[[1]]~~ 12, characterized in that the asynchronous processor comprises an interrupt input for receiving the error signal and is further arranged to execute software instructions upon reception of the error signal.

14. An integrated circuit comprising an electronic circuit arrangement as claimed in claim ~~[[1]]~~ 12.

15. A bus station for use in a bus system comprising an electronic circuit arrangement as claimed in claim ~~[[1]]~~ 12.

16. A bus station as claimed in claim ~~[[4]]~~ 15, characterized in that the bus station is a bus station for use in a LIN bus system.

Allowable Subject Matter

2. Claims 1-6, 8, 9, and 11-16 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The elements of independent claims 1, 6, and 12 were not found through a search of the prior art, nor were they considered obvious by the examiner. In particular, the prior art of record does not teach or suggest, in combination with the remaining claim limitations, "wherein the asynchronous processor does not receive and is not dependent on any clock signal."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
